SES collaborates with all units of the university in an effort to increase student success and retention.

“This seminar is essential for incoming freshman. As a new student I had so many questions about college and I didn’t know who to ask. The SES seminar answered all my questions and taught me even more in the process.
(Freshman Spring 2013)
Welcome new Trojans! We know that there's nothing quite like your first year of college. New challenges and opportunities await you! This is an exciting time, but it can sometimes be a little scary, too. That's why Virginia State University College created the Student Enhancement and Support Program (SESP) at Virginia State University. SES Program is here to help you make a smooth and successful transition to college life. Participating in all the SES program seminars will help you build a foundation of success that will support you during your first year at VSU, and all the way to graduation.

**About the SES Program**

The program provides opportunities for first year students to become active integrated members of the university and develop skills needed for academic and personal success. It involves students in activities that complement academic learning.

**SES Workshops/Seminars**

- Managing Your Time
- Test Taking
- Study Habits
- Note Taking
- Discovering How You Learn
- Managing Your Money
- Critical Thinking in College and Everyday life
- Reading to Learn from College Textbooks
- Learning to Study, Comprehend, and Remember
- Improving Your Performance on Exams and Tests
- Appreciating Diversity
- Establishing and Maintaining Relationships in College
- Writing and Speaking Effectively
- Developing Library, Research, and Information Literacy Skills
- Making the Right Choice for Majors and Careers

Success ...means engaging students with their university experience in multiple and meaningful ways.
