Thousands of success stories begin at Virginia State University. As the nation’s first state-supported, historically Black university, this is where generations of the best and the brightest have begun their journeys toward the future.

MAKE A SMOOTH TRANSITION

Virginia State University welcomes new transfer students year round. We make every effort to ensure that transfer students receive full credit for all course work successfully completed at other institutions.

TRANSFER REQUIREMENTS
A cumulative average of 2.0 or above for previous college-level studies from an accredited college or university is required.

If you’ve earned an associate degree at any of the schools with which VSU maintains an articulation agreement, you have satisfied the University’s General Education requirements and will be admitted to VSU as a junior.

Applicants transferring from a Virginia community college or Richard Bland College, who completed the requirements for the Associate in Arts (A.A.) or Associate in Science (A.S.) degree in the college Parallel/College Transfer Program may be admitted as juniors. Applicants who have not completed the requirements for an Associate of Arts/Science degree and those holding an Associates in Applied Science (A.A.S.) degree may be admitted based on a course-by-course credit evaluation.

VSU is excited to announce its transfer guarantee with all California Community Colleges. For more information about the agreement, visit extranet.cccco.edu/HBCUTransfer.aspx
