Corporate
2013 Finance Analyst Development Program
Summer Program

About JPMorgan Chase
JPMorgan Chase is a leader in financial services, working in collaboration across the globe to deliver the best solutions and advice to meet our clients’ needs, anywhere in the world. We operate in 100 countries, and hold leadership positions across our businesses. We have an exceptional team of employees who work hard to do the right thing for our clients and the firm, every day. This is why we are one of the most respected financial institutions in the world – and why we can offer you an outstanding career.

Business Area
The Finance function of JPMorgan Chase provides an ideal opportunity to increase Analysts’ understanding of global finance. Our Finance teams play an essential role in every business, combining well-developed performance measurement processes with sophisticated analysis methods including economic capital measurement. The result is exceptional financial discipline throughout the firm.

Program Overview
Joining our summer program will position you as a strategic partner in our business, operating across every business area and function. Providing end-to-end financial management, you will be exposed to diverse project assignments that offer a hands-on learning experience and the opportunity to make real contributions to business decisions. Working closely with experienced senior managers, you will analyze results and offer insights across performance, strategy, control issues and operating models.

This is a ten-week leadership program designed to develop finance professionals who share our passion for instituting meaningful change and delivering powerful financial results for JPMorgan Chase. Summer Analysts are engaged in an assignment in either a line of business Asset Management, Commercial Banking, Corporate & Investment Bank, Consumer & Community Banking or a Corporate Group, Chief Investment Office, Corporate Finance Analytics, Capital and Control and Treasury.

Positions in this program are available in the following locations:
- New York Metropolitan Area (includes Jersey City, NJ)
- Newark/Wilmington, DE
- Columbus, OH
- Chicago, IL

Roles and Responsibilities
Outlined below are samples of opportunities offered by our program, designed to increase your understanding of global finance and help you develop into an active contributor to the firm.

- **Reporting, Planning and Analysis**: Internally report monthly or quarterly financial results, including preparing presentations for senior management; analyze business reasons behind results; forecast financial results for future periods; prepare future years’ budgets.

- **Controllers**: Request, consolidate, analyze, validate and report financial data while adhering to internal control standards; ensure overall integrity and validity of financial statements and controls over the transaction cycle; work to enhance the efficiency and control of the financial reporting process; work on external filings and press releases.

- **Risk**: Analyze and report, internally and externally, composition of risks across the firm, including preparing periodic overviews for the firm’s Board of Directors, and daily, weekly and monthly risk and financial reports for the firm’s senior management to monitor overall risk profiles.
Corporate
2013 Finance Analyst Development Program
Summer Program

- **Strategy and Business Development**: Analyze client information, market data and competitor positioning for senior management; work on project execution; conduct strategic analysis by leveraging business knowledge, technical analysis and modeling skills to provide strategic insights.

- **Treasury / Balance Sheet**: Work on managing the firm’s liquidity and capital positions; establish funds transfer pricing policy; analyze the firm’s line of business and consolidated earnings at risk; execute the firm’s securitization programs and manage the firm’s relationships with rating agencies and fixed income investors.

**Training and Development**
Summer Analysts participate in a series of activities to learn about other areas of the firm, corporate strategies and business challenges. The program includes workshops, presentations by senior business leaders, community service events and networking events with mentors, managers and current full-time Analysts.

**Qualifications**
We seek highly motivated individuals who are eager to build a long-term career within the firm’s Finance organization. Ideal candidates exhibit a demonstrated interest in corporate finance, the financial services industry and our firm, along with strong analytical, quantitative, problem-solving, leadership and communication skills.

Additional specific qualifications include:
- Rising junior or senior in college
- Ability to clearly articulate complex ideas and creatively solve problems
- Preferred majors include Finance, Accounting and MIS/CIS; however, all majors are considered
- GPA of 3.5 or above preferred
- Excellent verbal and written communication skills, and analytical skills
- Basic understanding of financial statements, accounting procedures, as well as internal and external reporting and variance analysis
- Demonstrated leadership, motivation, interpersonal and relationship management skills
- Intermediate to advanced proficiency with MS Excel, Word, PowerPoint and Access

All candidates must have eligibility to work permanently in the U.S.
